**With PAPER PALLET you
are on the right track**

**When do you change to
paper pallet?**

Increasing of efficiency

Easy.

The advantages of pallets

Smart alternative with pallets

Lightweight paper pallets from ultra-rigid corrugated cardboard instead of pallets made from wood or other materials.

- Weight reduction: even 75%
- Space reduction: even 50%
- Cost reduction: even 25%

- High level of hygiene
- Multi-way usage
- Better ergonomics and safety

- 100% recyclable
- Lower **CO₂ emission**

- Damp proof
- Impregnated version

- Robust
- Big marketing surface

Freight carriers have been proven to enjoy its benefits throughout the logistics chain and they save money

Paper pallet does a great job to save and create a safer workplace.

Due to its weight, **ONE** person is enough to move it.

Its smooth surface minimizes the risk of any injury.

No shavings, no protruding rivet.
